We will address why it's important for Jewish children to see themselves reflected positively in contemporary literature. Then I will share with you my process to turn an idea into a real book. Saralee Siegel has a super nose-- she can smell things like no one's business! Her Zadie says that with a nose like that, she'll rule the world. This fast-paced, magical story about a girl who loves to cook, a rival restaurant, and a secret Rosh Hashanah apple cake recipe, is told in an illustrated chapter book format.

In this second book about Saralee Siegel, the girl with the super nose, Saralee decides to create a new recipe for Sukkot--out of starlight. The starlight makes the soup taste just like each person's favorite soup in the world. But there's a problem with the recipe that only the magic of friendship can fix.

Saralee is stunned to learn that she's not the only one in the family with a superpower. Her great-grandmother Gigi also had a magical sense of smell. And when Saralee makes Gigi's Hanukkah donut recipe, the scent creates a portal in time.

Saralee Siegel has a superpower--her super-nose. But sometimes things don't turn out quite the way she expects. That's the problem with magic. Join Saralee in the fourth book of this magical series and see how a mysterious party planner tries to upset Saralee's holiday plans for Purim.

"Elana was a very engaging presenter. Our younger students loved playing the super nose game and were nose deep in the book as they walked out the door. Elana also got our older elementary and middle school students thinking and talking about Jewish representation in books and media. They had so much to say and she facilitated a great conversation. "
